To Whom It May Concern:

This letter will serve as a reference for Robert Andrew, who provided excellent technology services to Advisory Neighborhood Commission 3C (ANC 3C) several years ago. ANC 3C is an elected body that represents six neighborhoods in all governmental matters before the District of Columbia Council, the Executive, and the federal government. Keeping the community informed of our activities on their behalf and also serving as a resource so that residents can fully participate in matters of importance to them is a critical function of ANC 3C. The creation of a website was a natural step in fulfilling both our legal responsibilities and our desire to proactively involve the community in our work.

Bob was a well-known community leader when we approached him to design our website. He was an ideal choice because he understood the range of governmental matters that we cover and the essence of the information that is necessary to communicate to the public. He collaborated well with us and advised all our decisions about the organization and content of the website. As a result the website is easy to access, converts word document resolutions to PDF files, posts all our meeting minutes, a calendar of community and city hearings and meetings, and updated timely news on the issues before us. With linkages to the city government and community groups, the website provides a comprehensive resource for our constituents.

ANC 3C is a nine-member commission and each commissioner held strong views on the direction our information sharing website should take. Bob understood our individual visions as well as the collective views and managed to successfully incorporate all of it into a workable website. His talent for anticipating what the consumer wants and needs and translating that into a vehicle that represented ANC 3C well was very much appreciated.

I can highly recommend Bob for any position that combines his technology skills with broader responsibilities of community outreach. He is not someone who should be cloistered from the public.

If I can provide additional information, please don't hesitate to contact me at 202-966-5333 or nmacwood@aol.com.

Sincerely,

Nancy J. MacWood
 Chair, ANC 3C
